

WOOLET KICKSTARTER · NATURE-DOCUMENTARY PARODY · CONCEPT B

THE EXPEDITION

Visual storyboard - 11 shots / ~90 s · David Attenborough-style AI VO (TopMediai)

The joke is always on the mall and the industry, never on the customer.

Master 16:9 · 1920×1080

Cutdown 9:16 · 1080×1920

Runtime ~90 s

VO ~200 words · 125-135 wpm

CTA Kickstarter · \$114 (-40%)

ACT 1 · S1-S5 · COOL / FLUORESCENT · “THE STRUGGLE”

ACT 2 · S6-S11 · WARM / GOLDEN · “DISCOVERY · ITALY · RELIEF”

0:00-0:08

S1

THE BROAD-FACED PROFESSIONAL

INTRO - THE "SPECIMEN" IN HIS HABITAT

"Here, in the fluorescent wilderness of the shopping mall... we find him. The broad-faced professional. A magnificent specimen."

Camera: push-in from behind a display rack, handheld drift

Lens: 35mm, shallow depth of field

Light: cold fluorescent, faint grain

Audio: mall ambience, fluorescent hum

0:08-0:16

S2

Problem 1: size is a mystery

PROBLEM 1 - FRAMES HIDE THEIR TRUE WIDTH

"The frames guard their true width. He cannot tell how wide they are. So he guesses... and he guesses wrong. Again."

Camera: patient, static observation

Lens: 50mm

Action: inspects tiny frames, tries them on - too small

Grade: cool, desaturated

0:16-0:24

S3

Problem 2: small frames widen a full face

PROBLEM 2 - BEARD + FULL FACE VS. TINY FRAMES

“Note the beard - a clever adaptation, grown to lengthen the face. But the tiny frames undo his work in a single, tragic instant.”

Camera: tight close-up, mirror

Lens: 85mm, shallow focus

Emotion: quiet resignation

Grade: soft cool light

0:24-0:32

S4

Problem 3: bridge 16-19 mm · he needs 24

PROBLEM 3 - WIDE NOSE, BRIDGE 16-19 VS 24 MM

“And a hidden trap: even a narrow face may carry a wide nose. The mall offers sixteen to nineteen millimetres. He needs twenty-four. It perches. It pinches. It slides.”

Camera: extreme macro, clinical

Detail: pressure marks, bridge sliding down

Lens: macro

Grade: cold, clinical

COMPOSITE-friendly - keep the frame simple, leave room for the insert

0:32-0:40

S5

Problem 4: injection-molded = brittle

PROBLEM 4 - INJECTION-MOLDED PLASTIC SNAPS

“These frames were not crafted. They were injected - poured, cooled, forgotten. In the wild... they do not survive.”

Camera: slow-motion macro

Action: temple arm snaps, shard drops

Light: dramatic side light

SFX: crisp “snap”

0:40-0:50

S6

FITLENS · fits big AND small faces

DISCOVERY - FITLENS SCAN · THE WARM TURN

“But the species has adapted. It has found a tool. FitLens measures any face - the broad, and the narrow alike - in sixty seconds.”

Camera: gentle push-in

Lens: 50mm

Light: flip cool → golden ON CAMERA

SFX: soft digital chime + music swell

COMPOSITE - overlay the real FitLens scan UI (mesh/grid) on the phone screen in the edit

0:50-0:58

S7

HAND-FINISHED IN ITALY

ITALIAN HAND-CRAFT - MAZZUCHELLI ACETATE

“Woolet. Italian Mazzucchelli acetate. Cut and finished by hand. Not injected - crafted.”

Camera: macro → medium, workshop

Light: warm window light

Detail: craftsman's hands, acetate block

SFX: light workshop tool sounds

0:58-1:06

S8

WOOLET 007 · 009

THE FIT - RIGHT WIDTH + BRIDGE UP TO 24 MM

“The right width. The right bridge - up to twenty-four millimetres. It fits. Finally.”

Camera: medium close-up

Lens: 85mm

Emotion: calm satisfaction

SFX: warm sub-drop

COMPOSITE - match / replace with real Woolet 007 (round) and 009 (square) renders

1:06-1:14

S9

BESPOKE · ~300 variations

BESPOKE - ~300 VARIATIONS FOR THE OUTLIERS

“And for the rarest specimens - a size that does not yet exist - three hundred bespoke variations await.”

Camera: gentle dolly across the collection

Light: museum-style warm spotlights

Background: dark velvet

Grade: rich & premium

COMPOSITE - use real frame renders if available

1:14-1:22

S10

PAYOFF - SEEN, MEASURED, FITTED

“At last... the broad-faced professional is seen. Measured. Fitted.”

Camera: observational follow shot

Lens: 35mm

Action: walks away through the blurred mall, slight smile

Grade: golden warm, music: resolve

1:22-1:30

S11

BACK ON KICKSTARTER · WOOLET.CO

FOUNDING PRICE \$114 · -40%

LOGO + CTA - END CARD

| “Back Woolet on Kickstarter. Founding price - forty percent off.”

Logo: official brand-book wordmark (SVG)

Colors: gold #CAA449 on #080807

Anim: subtle fade-in

Hold: CTA for 3+ s

BUILD IN THE EDITOR (motion graphics) - do not generate with AI; use the SVG wordmark

Character reference - “the specimen”

- Male, ~45, genuinely broad/large face, strong jaw, well-groomed full beard, short hair. Dignified, never a caricature.
- Wardrobe: navy blazer over a plain grey crew tee - same outfit in every shot.
- Demeanor: calm, dignified, a little weary - a wildlife subject unaware of the camera.
- This image = first-frame / reference for every image-to-video generation (Veo 3 / Kling 2.x / Runway Gen-3 / Sora).
- The board frames serve as keyframes - generate 5-8 s silent clips and cut to the VO.

Production notes

MUSIC & SFX

Nature-doc bed: light strings + soft woodwinds. Cool/sparse S1-5, warm swell from S6, gentle resolve S10-11. VO always on top, music ducked -12/-14 dB under VO. SFX: fluorescent hum (1-5), snap (5), chime (6), workshop tools (7), sub-drop (8).

GRADE - TWO ACTS

Act 1 (S1-5): cool, desaturated, greenish fluorescent. Act 2 (S6-11): warm, saturated, golden. The color flip happens on camera in S6 as he raises the phone. Brand accents on graphics only: gold #CAA449 · black #080807 · cream #EDE7D9.

TEXT & CAPTIONS

Cormorant Garamond (display) + Barlow (small caps). Problem labels bottom-left like documentary field notes (S2-5); product labels center-lower (S6-9). Burned-in captions for the whole film (silent autoplay). End card holds the CTA 3+ s.
